“**Subsequent Issuance Price**” shall mean, for purposes of determination of any Dilutive Issuance or Weighted-Average Anti-Dilution Adjustment, Full Ratchet Anti-Dilution Adjustment or Below-Market Anti-Dilution Adjustment, the amount actually paid or payable for one share of Common Stock upon the issuance or deemed issuance thereof by the Company. Such amount shall be determined in accordance with the following provisions:

(a) *Issuance of Options or Convertible Securities.* In the event of any Subsequent Issuance of Options or Convertible Securities, the Maximum Shares Deemed Outstanding (as defined in the definition of “Subsequent Issuance” above) shall be deemed to have been sold for a price per share equal to the lowest price for which one share of Common Stock is issuable upon the conversion, exercise or exchange thereof (or upon conversion, exercise or exchange of any Convertible Securities or Options issuable upon conversion, exercise or exchange of any such Options or Convertible Securities), regardless of whether such Options or Convertible Securities are then exercisable, convertible or exchangeable and without regard to any limitations on beneficial ownership contained therein. Such “lowest price” shall be determined by dividing (i) the sum of the total minimum amount of aggregate consideration (if any) effectively received or receivable by the Company for and upon (A) the granting, issuance or sale of such Options or Convertible Securities, (B) the full conversion, exercise or exchange of such Options or Convertible Securities, and (C) if applicable, the full conversion, exercise or

exchange of any other Options or Convertible Securities issuable upon conversion, exercise or exchange of such Options or Convertible Securities, by (ii) the Maximum Shares Deemed Outstanding with respect to such Options and Convertible Securities.

(b) *Variable Rate or MFN Transaction.* Without limiting the foregoing, if any Subsequent Issuance of Options or Convertible Securities constitutes a Variable Rate Transaction or an MFN Transaction, then for purposes of determining the “lowest price” in the preceding paragraph (a), the Conversion Price, Exercise Price or Exchange Price (as the case may be) under such Options or Convertible Securities shall be (i) on the date of issuance thereof, the effective Conversion Price, Exercise Price or Exchange Price under such Options or Convertible Securities in effect on such date (regardless of whether such Options or Convertible Securities are then exercisable, convertible or exchangeable and without regard to any limitations on beneficial ownership contained therein), and (ii) on each and every date thereafter, the Conversion Price, Exercise Price or Exchange Price under such Options or Convertible Securities in effect on such date (regardless of whether such Options or Convertible Securities are then exercisable, convertible or exchangeable and without regard to any limitations on beneficial ownership contained therein) if such Conversion Price, Exercise Price or Exchange Price is less than every preceding Conversion Price, Exercise Price or Exchange Price, in which case the Subsequent Issuance Price shall be adjusted downward accordingly on each such date and each such adjustment shall constitute a Subsequent Issuance under clause (d) of the definition of “Subsequent Issuance” above.

(c) *Change in Option Price or Rate of Conversion/Exchange.* In the event of any Subsequent Issuance pursuant to an amendment or automatic revision to the terms of any Option or Convertible Security described in clauses (c) or (d) of the definition of “Subsequent Issuance” (including without limitation any automatic adjustment or change to the Conversion Price, Exercise Price or Exchange Price thereunder), then the Subsequent Issuance Price shall be determined in accordance with the provisions of this definition as of the date of such effective Subsequent Issuance as if such Convertible Security or Option were originally issued for such amended or revised Subsequent Issuance Price.

(d) *Calculation of Consideration Received.* In case any Option is issued in connection with the issuance or sale of other securities of the Company, together comprising one integrated transaction in which no specific consideration is allocated to such Options by the parties thereto, the Options will be deemed to have been issued for a consideration of \$0.01 in the aggregate. If any shares of Common Stock, Options or Convertible Securities are issued or sold or deemed to have been issued or sold for

cash, the consideration received therefor will be deemed to be the net amount received by the Company therefor. If any shares of Common Stock, Options or Convertible Securities are issued or sold for a consideration other than cash, the amount of such consideration received by the Company shall be the fair value of such consideration, except where such consideration consists of publicly traded securities, in which case the amount of consideration received by the Company will be the closing sale price of one share of such security as of the date of receipt. If any shares of Common Stock, Options or Convertible Securities are issued to the owners of the non-surviving entity in connection with any merger in which the Company is the surviving entity, the amount of consideration therefor will be deemed to be the fair value of such portion of the net assets and business of the non-surviving entity as is attributable to such shares of Common Stock, Options or Convertible Securities, as the case may be. Calculations of fair value pursuant to this paragraph shall be determined in good faith using standard commercial valuation methods appropriate for valuing such assets by the Company's independent certified public accounting firm that regularly examines the financial statements of the Company, subject to dispute resolution as set forth in the applicable Notes, Certificate of Designation or Warrants or other Transaction Document. In the event a fee is paid by the Company in connection with any issuance of any shares of Common Stock, Options or Convertible Securities directly or indirectly to the recipient of such Common Stock, Options or Convertible Securities or its affiliates, any such fee shall be deducted from the issuance price therefor *pro rata* to all shares of Common Stock sold (or deemed sold) in such transaction in determining the Subsequent Issuance Price.

- (e) *Other Provisions.* For purposes of any Subsequent Issuance, any shares of Common Stock issued or issuable upon redemption or repayment of, or otherwise with respect to, the terms of any Convertible Security shall be deemed to be issued and sold by the Company at the price or rate at which such shares are issued or issuable thereunder. If the number of shares of Common Stock to be issued to the holder of any Convertible Security upon conversion thereof is based on a rate or ratio of exchange instead of a dollar amount per share of Common Stock, such rate or ratio shall be utilized for appropriately and equitably determining the effective Conversion Price or Exchange Price expressed as a dollar amount per share of Common Stock for purposes of determining the Subsequent Issuance Price. Following any Weighted-Average Anti-Dilution Adjustment, Full Ratchet Anti-Dilution Adjustment or Below-Market Anti-Dilution Adjustment upon the issuance of Options or Convertible Securities, no further adjustment of the applicable Conversion Price, Exercise Price or Exchange Price shall be made upon the actual issuance of such shares of Common Stock upon conversion, exercise or exchange of such Options or Convertible Securities (or upon the actual

issuance of new Convertible Securities or Options issuable upon conversion, exercise or exchange of such Convertible Securities or Options or the actual issuance of shares of Common Stock underlying such new Convertible Securities or Options), provided adjustment for such issuance was effected upon the original issuance of such Options or Convertible Securities.

All such determinations shall be appropriately and equitably adjusted for any stock dividend, stock split, stock combination or other similar transaction occurring during any pricing period for which VWAPs are included in the calculation.

“Warrant Coverage Percentage” shall mean each percentage, if any, set forth as such in the Securities Purchase Agreement, with respect to one of more types of Warrants being issued pursuant to, and as designated or set forth in, the Securities Purchase Agreement.

“Warrants” mean any and all warrants, options or similar subscription or purchase rights purchased or contemplated to be purchased pursuant to the Securities Purchase Agreement entitling the Purchasers to purchase (a) shares of Common Stock, which Warrants are in the form set forth as an exhibit to the Securities Purchase Agreement (including without limitation PST Document WAR to the extent incorporated therein by reference), or (b) Preferred Shares, Notes and/or Warrants which are directly or indirectly convertible, exercisable or exchangeable for shares of Common Stock. received or receivable) by the Company in connection with such Dilutive Issuance (based on the Subsequent Issuance Price) would purchase at such Conversion Price, Exercise Price or Exchange Price, as the case may be, and the denominator of which shall be the sum of (i) the number of shares of Common Stock of the Company actually outstanding immediately after such Dilutive Issuance plus (ii) the Maximum Shares Deemed Outstanding as a result of such Dilutive Issuance. No adjustment shall be made pursuant to a Weighted-Average Anti-Dilution Adjustment provision to the extent that such adjustment would result in an increase of the applicable Conversion Price, Exercise Price or Exchange Price then in effect or a decrease in the number of applicable Underlying Shares. Simultaneously with any reduction of the Exercise Price under any Warrant pursuant to a Weighted-Average Anti-Dilution Adjustment, the number of Warrant Shares that may be purchased upon exercise of such Warrant shall be inversely proportionately increased so that after such adjustment the aggregate Exercise Price payable under the Warrant for the adjusted number of Warrant Shares shall be the same as the aggregate Exercise Price in effect immediately prior to such adjustment.
